

MDOT Local Agency Bridge Bundling Pilot Project
Virtual DBE Open House
Follow-up Questions

November 10, 2020

- Q: During the DBE Open House & Matchmaking presentation on October 23rd, it was mentioned that a few of the structures were substituted out. When comparing the structures from within the presentation to the original RFQ, they appear to be the same. Can you verify if there are indeed any structure updates?
- A: The reference in the DBE presentation was early in the process. We ended up substituting bridges based on feedback from the local agency bridge champions, and not the shortlisted firms. The candidate bridges have been consistent since the issuance of the SOQ. There are no additional updates/changes to provide.
